DETAILED ACTION

Allowable Subject Matter

- 1. Claims 43-48 are allowed.
- 2. The following is an examiner's statement of reasons for allowance:
- 3. While "AutoCad 2000: 3D Modeling A Visual Approach" shows a plurality of virtual planes where the user can select a certain plane and be shown attribution information for that plane, neither this reference taken alone or in combination with the prior art of record disclose "display of a 3D model and a plurality of virtual planes in the same 3D space, wherein the 3D model is projected on each of the virtual planes". It is this display of multiple planes with the ability for the user to select one plane without losing view of the remaining planes, in combination with the remaining elements and features of the invention, that the applicant's invention defines over the prior art of record.
- 4. It is noted that the image included with the interview summary attached to this document (originally submitted in smaller form in the arguments presented 1/19/2006 on page 3) was helpful in visualizing the claimed invention and differentiating the claims from the AutoCad reference, and specifically from image 6-1 of the AutoCad reference which shows multiple virtual planes in different windows and not in the same "3d space" as claimed.
- 5. With regard to claim 43, this claim is written as an apparatus with software implementation. The Examiner is viewing the "means" as being the physical equipment being used to provide the means and not the software program as claimed in claim 45. For example,

Art Unit: 2125

the "display control means" must have a hardware display functionality in order for the software to be able to create the display. Thus, this claim is satisfactory under USC 112, sixth paragraph. See page 18 of the specification for more information on the hardware involved in the means as claimed.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael D. Masinick whose telephone number is (571) 272-3746.

The examiner can normally be reached on Mon-Fri, 7:30-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Leo Picard can be reached on (571) 272-3749. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
